CEL Prayer Guide: The CEL Prayer Guide for the care of creation consists of an entry for each day of the month. Those for Sundays take the form of a prayer. The other days set out the facts on some current environmental issue and suggest prayer on this topic. This guide is an invaluable resource for churches wishing to include environmental issues in acts of worship. It is produced by CEL member Philip Clarkson-Webb and costs £8 p.a. (cheques payable to Philip Clarkson-Webb). It is available from 15 Valley View, Southborough, Tunbridge Wells, Kent TN4 0SY. The Prayer Guide can also be downloaded from CEL's website or sent to your email address monthly or daily.

CEL also has a community of prayer. Send for a postcard for more information.

Developing New Resources

CEL is currently creating printed and web-based resources for a new 'Churches in Transition' project. The *ecocell* programme is one major resource that is already available. Themes include: Energy in the Home, Shopping, Water, Transport and Travel, and Waste.

Our topic leaflets are currently being revised and reprinted to complement the themes of the *ecocell* CD. Please contact:

jill-publications@christian-ecology.org.uk

to find out what is available in new and old format. These leaflets cover different aspects of our lifestyle, and practical implications of Christian belief.
